

Computer Proficiency Certification Test

Notations :

- 1.Options shown in green color and with ✓ icon are correct.
- 2.Options shown in red color and with ✗ icon are incorrect.

Question Paper Name :	Computer Proficiency Certification Test 08th August 2021 Shift 3
Subject Name :	Computer Proficiency Certification Test
Creation Date :	2021-08-08 20:01:25
Duration :	95
Total Marks :	75
Display Marks:	Yes
Calculator :	None
Magnifying Glass Required? :	No
Ruler Required? :	No
Eraser Required? :	No
Scratch Pad Required? :	No
Rough Sketch/Notepad Required? :	No
Protractor Required? :	No
Show Watermark on Console? :	No
Highlighter :	No
Auto Save on Console? :	Yes

CPCT

Group Number :	1
Group Id :	2549892791
Group Maximum Duration :	75
Group Minimum Duration :	75

Show Attended Group? : No
Edit Attended Group? : No
Break time : 1
Mandatory Break time : Yes
Group Marks : 75
Is this Group for Examiner? : No

COMPUTER PROFICIENCY AND PROFICIENCY IN GENERAL IT SKILLS AND NETWORKING

Section Id : 2549894307
Section Number : 1
Section type : Online
Mandatory or Optional : Mandatory
Number of Questions : 52
Number of Questions to be attempted : 52
Section Marks : 52
Enable Mark as Answered Mark for Review and Clear Response : Yes
Sub-Section Number : 1
Sub-Section Id : 2549894348
Question Shuffling Allowed : Yes

Question Number : 1 Question Id : 2549896255 Question Type : MCQ Option Shuffling : Yes Is Question Mandatory : No

Correct Marks : 1 Wrong Marks : 0

Question Key Details :

Key	Value
Difficulty Level	Easy
Item Year	CPCT 2021
Topic	Software
Sub Topic	Operating Systems
Micro Topic	Windows
Objective	Knowledge
Section	Familiarity with computer systems

Files are organised by storing them in _____.

Options :

1. ✘ tables
2. ✘ databases
3. ✔ folders
4. ✘ graphs

Question Number : 1 Question Id : 2549896255 Question Type : MCQ Option Shuffling : Yes Is Question Mandatory : No

Correct Marks : 1 Wrong Marks : 0

Question Key Details :

Key	Value
Difficulty Level	Easy

Topic	Software
Sub Topic	Operating Systems
Micro Topic	Windows
Objective	Knowledge
Section	Familiarity with computer systems
Form	SET 52

_____ में स्टोर करके फ़ाइल को व्यवस्थित रखा जाता है।

Options :

1. ✘ टेबल
2. ✘ डेटाबेस
3. ✔ फ़ोल्डर
4. ✘ ग्राफ़

Question Number : 2 Question Id : 2549896434 Question Type : MCQ Option Shuffling : Yes Is Question Mandatory : No

Correct Marks : 1 Wrong Marks : 0

Question Key Details :

Key	Value
Difficulty Level	Easy

Item Year	CPCT 2021
Topic	Software
Sub Topic	Computer Languages
Micro Topic	Compiler
Objective	Knowledge
Section	Familiarity with computer systems
Form	SET 52

A tool that converts an entire program into machine language is called a/an:

Options :

1. ✘ Interpreter
2. ✘ Simulator
3. ✔ Compiler
4. ✘ Commander

Question Number : 2 Question Id : 2549896434 Question Type : MCQ Option Shuffling : Yes Is Question Mandatory : No

Correct Marks : 1 Wrong Marks : 0

Question Key Details :

Key	Value
Difficulty Level	Easy
Item Year	CPCT 2021

Birds and ecosystem

Birds are a special kind of animal species. They have specific characteristics that are common to all of them. All of them have feathers, wings, two legs, they lay eggs, and are warm-blooded animals belonging to the class Aves. They are an important part of our ecosystem.

Birds are of different sizes and colours. They could be small - as much as 2 inches e.g. the Bee hummingbird or as big as 2.75 meters like an Ostrich. Scientists are of the opinion that birds are as old as 160 million years.

Some birds cannot fly. The penguin is one such bird. Certain birds like parrots and crows are known to be highly intelligent. The way certain birds build their intricately woven and safe nests to preserve their eggs indicates that they have many skills.

Birds are very closely connected with the environment. They come to know about the change in weather conditions before humans can predict it. The presence of a peacock symbolizes rain and good weather while the presence of owls, bats and vultures is said to indicate a bad, unpleasant weather in an area. Birds are very social. Most communication among them happens through sounds that they make or singing that they do. They live in flocks, hunt, breed cooperatively and participate in social behaviours.

Many birds are extinct due to hunting. Even birds that live in water like ducks etc. have seen a drastic fall in numbers because of the polluted lakes and rivers. Birds living close to the river banks consume polluted water and die.

As birds are vital for the balance of this ecosystem we must take adequate steps to preserve them by providing them with safe and clean habitat for survival.

पक्षी और पारिस्थितिक तंत्र

पक्षी विशेष प्रकार की पशु प्रजातियां हैं। उनकी विशिष्ट विशेषताएं हैं जो उन सभी के लिए आम हैं। सभी के पंख, दो पैर होते हैं, वे अंडे देते हैं, और एवेस वर्ग से संबंधित गर्म खून वाले जानवर होते हैं। वे हमारे पारिस्थितिकी तंत्र का एक महत्वपूर्ण हिस्सा हैं।

भिन्न-भिन्न आकार और रंगों के पक्षी होते हैं। वे छोटे हो सकते हैं - लगभग 2 इंच, उदा. मधुमक्खी, हमिंगबर्ड या शतुरमुर्ग की तरह 2.75 मीटर से भी बड़े हैं। वैज्ञानिकों का मानना है कि पक्षी 160 मिलियन वर्ष पुराने हैं।

कुछ पक्षी उड़ नहीं सकते हैं। पेंगुइन एक ऐसा पक्षी है। कुछ पक्षी तोते और कौवे की तरह बहुत बुद्धिमान माने जाते हैं। जिस तरह से कुछ पक्षी अपने अंडे को बचाने के लिए अपने जटिल बुने हुए और सुरक्षित घोंसले का निर्माण करते हैं, उससे यह संकेत मिलता है कि उनके पास कई कौशल हैं।

पक्षी पर्यावरण से बहुत निकटता से जुड़े होते हैं। लोगों द्वारा भविष्यवाणी करने से पहले उन्हें मौसम की स्थिति में बदलाव के बारे में पता चल जाता है। मोर की उपस्थिति बारिश और अच्छे मौसम का प्रतीक है जबकि उल्लू, चमगादड़ और गिद्धों की उपस्थिति क्षेत्र में बुरे, खराब मौसम को इंगित करता है। पक्षी बहुत सामाजिक होते हैं। उनमें से अधिकतर संचार ध्वनि के माध्यम से होता है जो वे करते हैं या गाते हैं। वे झुंड में रहते हैं और सामाजिक व्यवहार में भाग लेते हैं।

शिकार के कारण कई पक्षी विलुप्त हो जाते हैं। यहां तक कि बतख आदि जैसे पानी में रहने वाले पक्षियों में प्रदूषित झीलों और नदियों की वजह से संख्याओं में भारी गिरावट देखी गई है। नदी के किनारे रहने वाले पक्षी प्रदूषित पानी का उपभोग करते हैं और मर जाते हैं।

चूंकि पक्षी इस पारिस्थितिकी तंत्र के संतुलन के लिए महत्वपूर्ण हैं। हमें जीवित रहने के लिए उन्हें सुरक्षित और स्वच्छ आवास प्रदान करके उन्हें संरक्षित करने के लिए पर्याप्त कदम उठाने चाहिए।

Nowadays, keeping yourself motivated has become very important. In this society of letting people down in every way has encouraged everyone to put a step towards motivating themselves. Here are six ways that will help you to keep yourself motivated and keep you moving forward in every situation. Build a business around your passion. When you do something you truly love it is not hard to find the motivation needed to succeed. If you are involved in an industry that bores you it will be hard to find that motivation. Always have long-term and short-term goals. Both short term and long term goals give you something to work for, and including short-term goals make sure that you are able to taste success on a regular basis providing further motivation to push you towards achieving the long-term goals. Be extremely positive. When you are constantly cheerful you focus on just the positives, which helps you stay motivated and focused on reaching your goals. The minute you start to bring negative thoughts into your mind is the moment your positiveness mixes up in the sand. Commit to the end goal. Success often comes to those who take big risks, and big risks can result in failures. There are very few who hit wonders as most successful entrepreneurs have experienced failure at one point. Even if you have failed in the past, commit to your end goal and don not think about those past failures or the possibility of failing again. It could happen but you could also be the next success story. This whole story comes to the above one that if you lose your confidence of doing better you will never get success. Surround yourself with likeminded people. The company you surround yourself with has a direct influence on how you behave, both in your personal life and in the workplace. People around you decides the energy that keeps on rotating around your head. You should be very serious in the choice of environment where you want to live in. Establish a personal reward system. It is always nice to be rewarded for your hard work and you can all benefit yourself greatly by giving a personal rewards. It does not have to be expensive, sometimes simple rewards can motivate you to push forward harder. Friday afternoon pizza for the office if all goals are hit for the week is a great way to keep a team motivated and pushing hard, while you might reward yourself with an early Friday departure from the office if personal performance goals are successfully completed. Trips, cars and material items can be used for larger goals and they can encourage that little bit of extra motivation needed to taste victory. Experiment with different rewards to see what works best for you and your team. At last motivating yourself has nothing to do with the stress and tensions, if you feel motivated then there is nothing that you cannot do. You can try different tactics to feel confident about what you do and this will lead to motivational journey.
