**Q.21 Read the passage carefully and answer the questions given below it - [2x4=8]**

Stress is nothing but a mental tension or anxiety which is caused by the work at hand. This happens when one is not able to deal with that work. For example, a student who has no aptitude for a subject is compelled to take it up either because of parental pressure or because of pressure from peer groups or due to the perceived importance of the subject itself. When he or she finds it difficult to cope with it and wants a change the external pressures deny him or her such a change. This situation leads to stress. No work is done well when one's mind is under stress. This inability to do well leads to difference. Gradually this difference leads to a feeling of inferiority.

Persons with such inferiority complex isolate themselves and succumb to stress. This leads to inefficiency, loss of interest and above all to a total breakdown - physical, mental, emotional and moral.

**Questions :**

- (ii) How does student come under the stress ?

heading :

[3+1=4]

No one remembers, what life was like before the T.V. came. Today people do not read books, they do not visit friends, they don't listen to music or have hobbies. Everyone rushes home and quickly eats his meals to be ready for the T.V. programmes. The children are the worst sufferers. They forget their food, leave their homework undone, and even miss their sleep. They watch violence on the screen and are deeply affected by it. T.V. makes us lazy and cuts us off from the world of reality. We become idiots and lose our ability to think. I strongly recommend that the T.V. should be banned in India.
