-

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and compares them with the previous studies in the field.

4. The fourth part of the report is a conclusion and a list of references. The conclusion summarizes the main findings of the study and provides recommendations for future research. The references list the sources of information used in the study.

5. The fifth part of the report is an appendix containing additional information related to the study. This may include raw data, detailed calculations, or other supporting materials.

6. The sixth part of the report is a bibliography listing the sources of information used in the study. This is a standard feature of academic reports and provides a way for readers to find the original sources of the information.

7. The seventh part of the report is a list of figures and tables. These are used to present the results of the study in a clear and concise manner. They may include graphs, charts, and tables of data.

8. The eighth part of the report is a list of abbreviations and acronyms. This is used to define the terms used in the report and to ensure that the reader can understand the meaning of the symbols and abbreviations.

9. The ninth part of the report is a list of keywords. These are used to describe the main topics of the study and to help readers find the report in a database or search engine.

10. The tenth part of the report is a list of acknowledgments. This is used to thank the people who have helped with the study, such as the supervisor, colleagues, and friends.
