**VOICE**

Voice is one of the greatest gifts of God to man. You should make the best possible use of this rare talent. In your contacts with others or in development of your personality, your voice and tone are of importance. Even if you are a man of profound knowledge or brilliant ideas, you will be ineffective if your voice is not sweet. You should have good health so that vibrations of your voice are strong and effective. While speaking face to face with others or on the phone, regulate your voice, according to ideas. Your personal charm, friendliness and kindness are proved beyond doubt by your voice. While speaking to people your warmth and earnestness would be infectious and fill the listeners with a sense of friendliness and tenderness. Never speak in a rude voice. A little eagerness and joy in your voice can bring joy to listeners. In a conversation a flat voice will make you feel depressed. A pleasant voice is good and effective as a tonic. It can instill friendliness and warmth in your approach. You can improve the quality of your living by improving the quality of your voice.
