Merchants, artisans such as weavers, traders and craftspersons lived in the "Black Towns" in cities such as Madras.

Page No: 90

Let's understand**5. Why do you think towns grew around temples?****Answer**

Towns grew around temples because:

- (i) They were administrative centres.
- (ii) They were also centres of commercial activities and craft production.
- (iii) Temples wealth were used to finance banking and trades by the temple authorities.
- (iv) In order to cater the needs of pilgrims, a large number of priests, artisans, workers and traders settled near the temple and slowly pilgrimage centres developed into townships.

6. How important were craftspersons for the building and maintenance of temples?**Answer**

<https://www.indcareer.com/schools/ncert-solutions-for-7th-class-history-chapter-6-towns-traders-and-craftspersons/>

Craftspersons were very important for the building and maintenance of temples.

(i) These community consist of goldsmiths, bronzesmiths, blacksmiths, masons and carpenters which were essential to the building of temples.

(ii) They were also helpful in the artwork in copper and silver like making idols, designing the walls and the roofs.

(iii) The prosperous community of weavers also made donations to temples.

7. Why did people from distant lands visit Surat?

Answer

People from distant lands visit Surat because:

(i) It was the emporium of western trade.

(ii) It was the gateway for trade and also been called the gate to Mecca because many pilgrim ships set sail from here.

(iii) Portuguese, Dutch and English had their factories and warehouses at Surat.

(iii) Textiles of Surat were famous for their gold lace borders (zari).

(v) There were magnificent buildings and innumerable pleasure parks for the comfort of the people..

8. In what ways was craft production in cities like Calcutta different from that in cities like Thanjavur?

Answer

Craft production in cities like Calcutta different from that in cities like Thanjavur:

(i) Craftspersons in Thanjavur were independent while in Calcutta they were in the hands of Europeans.

(ii) In Thanjavur, crafts were developed on interest and they were creative and specialized while in Calcutta craftspersons began to work on a system of advances.

About NCERT

The National Council of Educational Research and Training is an autonomous organization of the Government of India which was established in 1961 as a literary, scientific, and charitable Society under the Societies Registration Act. The major objectives of NCERT and its constituent units are to: undertake, promote and coordinate research in areas related to school education; prepare and publish model textbooks, supplementary material, newsletters, journals and develop educational kits, multimedia digital materials, etc. Organise pre-service and in-service training of teachers; develop and disseminate innovative educational techniques and practices; collaborate and network with state educational departments, universities, NGOs and other educational institutions; act as a clearing house for ideas and information in matters related to school education; and act as a nodal agency for achieving the goals of Universalisation of Elementary Education. In addition to research, development, training, extension, publication and dissemination activities, NCERT is an implementation agency for bilateral cultural exchange programmes with other countries in the field of school education. Its headquarters are located at Sri Aurobindo Marg in New Delhi. [Visit the Official NCERT website](https://www.ncert.nic.in/) to learn more.
